

Shake the mic gently to join any song in progress.

Shake the mic rhythmically during music jams to earn Performance medals.

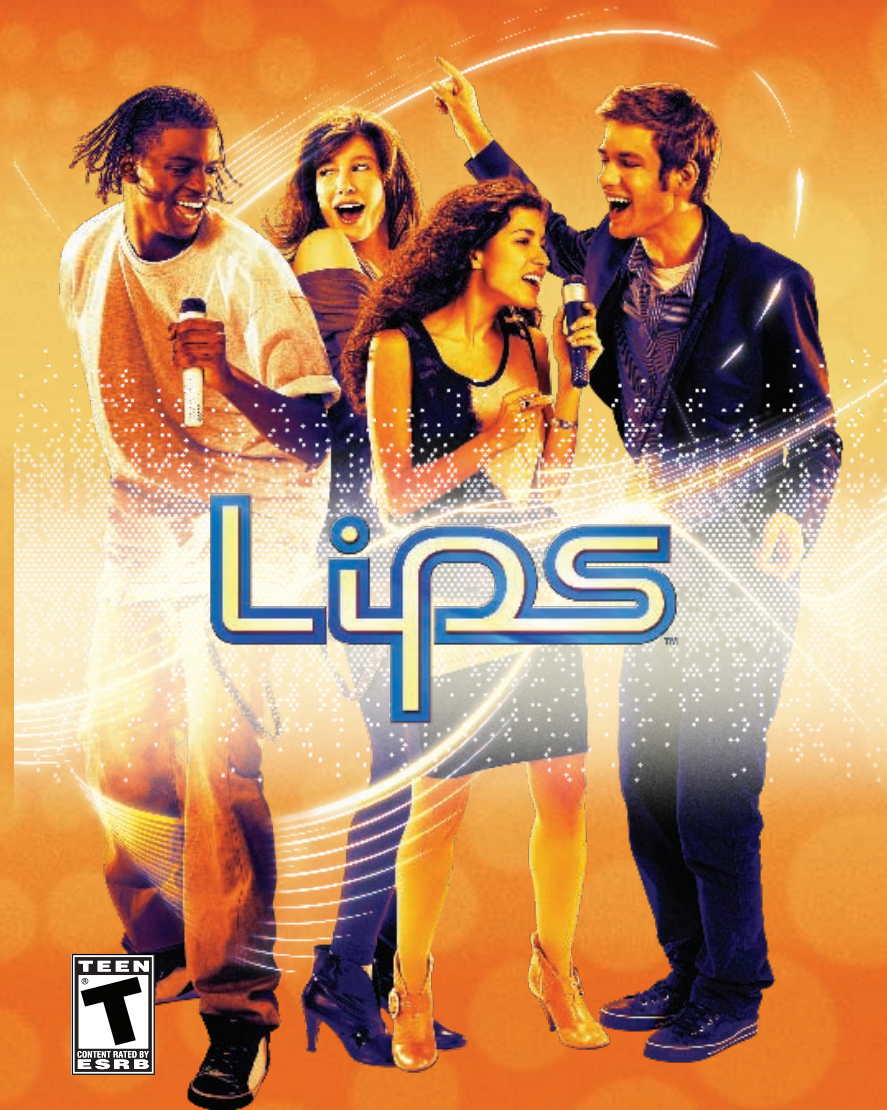

Tilt the mic when the Star Stream symbol appears on-screen.

Tilt both mics at the same time to trigger a kiss in the Kiss party game.

Tilt both mics if you're playing in Co-op mode to get double stars in Star Stream.

Tilt the mic to extinguish the lit fuse in the Time Bomb party game.

Shake the mic to sing to the end of a song launched in Short mode.

⚠ WARNING Before playing this game, read the Xbox 360® Instruction Manual and any peripheral manuals for important safety and health information. Keep all manuals for future reference. For replacement manuals, see www.xbox.com/support or call Xbox Customer Support.

Important Health Warning About Playing Video Games

Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these “photosensitive epileptic seizures” while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions: Sit farther from the screen; use a smaller screen; play in a well-lit room; and do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

ESRB Game Ratings

The Entertainment Software Rating Board (ESRB) ratings are designed to provide consumers, especially parents, with concise, impartial guidance about the age-appropriateness and content of computer and video games. This information can help consumers make informed purchase decisions about which games they deem suitable for their children and families.

ESRB ratings have two equal parts:

- **Rating Symbols** suggest age appropriateness for the game. These symbols appear on the front of virtually every game box available for retail sale or rental in the United States and Canada.
- **Content Descriptors** indicate elements in a game that may have triggered a particular rating and/or may be of interest or concern. The descriptors appear on the back of the box next to the rating symbol.

For more information, visit www.ESRB.org

Lips

Get Xbox
LIVE Free!

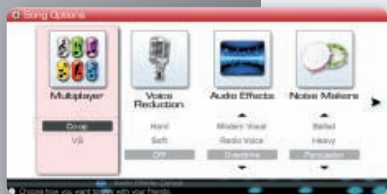

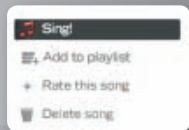

Get in the *Lips*™ fast lane with a free—yes, free—Xbox LIVE® Silver membership!

Go to xbox.com/en-US/live/features/silverage today!

Jump In and Sing!

You just loaded the ultimate singing experience. Ready? Hit it!

Jump In

When you load *Lips*, use to move to **Sing!**—the first option on the main screen—and then press on your Xbox 360® Controller.

All the songs in your *Lips* library are now available to you and on your screen. Next, use to move to a song you want to sing, and then press .

From the menu choices:

- **Sing!**
- **Add to playlist**
- **Rate this song**
- **Delete song**

Use to move to **Sing!** again, and then press .

You're now in Backstage, where you prep to sing. What do you want to sing to: The original video? An equally original party game? (Go to "Videos and Party Games" on page 8 to find out more.)

Next, decide to sing either the FULL version or the SHORT version of the song. To sing right away, go with SHORT. If you want to see more options, check out **Song Options**. Use to move to your choice, and then press .

If you selected **Song Options**, then you can make a few more choices:

- **Multiplayer:** Choose from Co-op or VS modes. Co-op is for duets. VS (or Versus) is for sing-offs.
- **Voice Reduction:** Reduce the recorded voice, so yours shines through.
- **Audio Effects:** Add pro effects to your voice.
- **Noise Makers:** Add rhythm instruments to your Xbox 360 Controller.
- **Timing Offset:** Calibrate your vocal timing.

Now grab an Xbox 360 Wireless Microphone. It's time to take to the stage and ...

Sing!

Shake your motion-sensitive microphone gently until it glows. This lets you know it's synced with your *Lips* game.

Whenever you sing, follow the wave of color as it passes through the lyrics bubbles on your screen. Doing so helps you keep up with the song's lyrics (the words) as they scroll on-screen.

If your singing matches the timing of the lyrics and the pitch of the music, then the bubbles fill with color and your score increases!

Lips' dynamic scoring system calculates every facet of your singing performance—from your ability to sing a song's lyrics on key and in time to your ability to perform like a pro using vibrato and slick microphone moves.

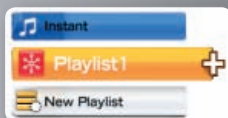

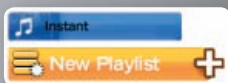

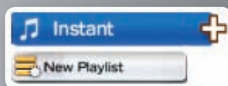

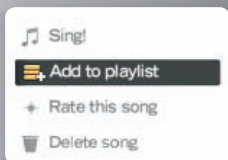

The better you sing and move, the higher your score and the more chances you get to trigger Star Stream. The more stars you get, the higher your score soars and the brighter your star shines in the *Lips* universe!

When a mic gesture icon appears to the right of the melody bars, strike that pose to trigger Star Stream.

Go for bonus stars to get more points!

Want to belt it out? Hold the mic away from your mouth a bit, or press and hold to reduce mic volume.

Save songs in themed playlists for parties, or create one on the fly.

Playlists

Creating a playlist is a lot like selecting a song.

First off, there are two types of playlists:

- **Instant Playlists:** These are best used with single gameplay sessions, and they don't get saved.
- **Named Playlists:** These are best used with long-term gameplay, and they do get saved—until you delete them.

Return to **Sing!** on the main screen, and then press **A**. Now you can see the songs in your library.

Use **○** to move to a song for your playlist, and then press **A**.

From the menu choices:

- **Sing!**
- **Add to playlist**
- **Rate this song**
- **Delete song**

Choose **Add to playlist**, and then press **A**.

Next, if you want to add this song to an Instant Playlist, choose **Instant**, and then press **A**.

When the **New Playlist** color bar appears, press **A**, and then use your Xbox 360 virtual keyboard to type in a unique name.

When you return to your library, you can choose another song to add to your current playlist, or create an entirely new playlist.

Press **BACK** to display the Playlist screen and check out your new playlist.

Single, VS, or Co-op Play?

Got game? *Lips* delivers three gameplay modes:

- Single mode isn't something you just declare—you and your mic have to take center stage. But be ready to share, because anyone can shake the second mic to join in, creating an instant multiplayer session.
- Use your voice to take on rivals in VS mode. Sing against a rival on the same song. Whoever scores highest wins the sing-off ... and major bragging rights.
- It takes two in Co-op mode. Team up with a friend to sing together for a combined score. Trigger Star Stream as a duo to double your stars and boost your Grand Rank.

Be a diva ... go solo!

*Settle the score.
Beat your rival on
the same song!*

*Why go it alone?
Sing with a friend.*

*Not your average
microphones ...*

Your Xbox 360 Wireless Microphones

Lips comes with two microphones—one black and one white. You can sing into them and then some because they also function as game devices.

Shake to join in

Shake the microphone gently to enter the game in Jukebox mode! A friend can shake the second mic to join the game in progress.

Tilt to win

Move the mics during songs for extra style points! Sometimes you must gesture your mic in specific ways, such as tilting it at a key time to win a party game like Kiss or Time Bomb.

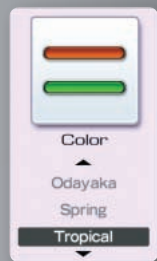

And because these mics are worthy of a megastar, you can shake them during the song (when you're not singing) and they sound like tambourines, maracas, or other rhythm instruments. They can even make sci-fi sound effects. Epic!

Choose your colors

The Options menu lets you, among other things, set the on-screen color for each player's mic and song bubbles.

From the main screen, use to move to **Options**, and then press . Next, move to **Color**, press , and then scroll through the color schemes.

Each color option appears dynamically, so you can preview it. The top color bar previews the color for Player 1, and the bottom color bar is for Player 2.

*The colors of your
mic lights synchronise
to the color bars
you sing to.*

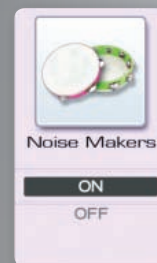

Noise Makers: Fun with Xbox 360 Controllers

Not ready to sing? Need to rest your voice? You can still play *Lips* while others sing—just use the Noise Makers on your Xbox 360 Controller to keep the beat.

All you have to do is rhythmically press the , , , , , and buttons. Get good and you could snag the Party medal. Celebrate!

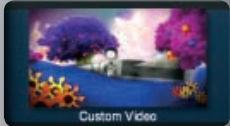

Load any set of rhythmic Noise Makers from the Song Options area—before the song starts, when you're Backstage. Want tambourines? Snapping fingers? More cowbell? Load 'em up ... and don't forget to add crowd noise with .

*There's more
to playing than
singing: Use your
controller to keep
the beat.*

Original Video

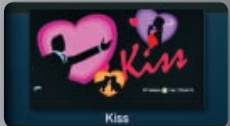

Custom Video

Virtual Music Video

Vocal Fighters

Kiss

Time Bomb

Random

Videos and Party Games

Before you play, take a moment to choose what cool video or party game you want to accompany your song choice.

For most songs, you can play the Original Video, the music video created for that song.

Lips also offers you a choice of totally unique visual backdrops.

Custom Videos are your backup when a song doesn't have an Original Video option, so you still sing in stellar style.

Virtual Music Video features a computer-generated video with a club feel, super-saturated colors, and lots of moves. The more you move the mic to the beat, the more active the video becomes.

Feeling like you got the chords to toast your rivals? There are all sorts of challenges in Lips beyond the straight-up musical ones.

When you're Backstage and just about to sing, why not up the ante and load a Lips party game?

A party game adds an extra layer of challenge to your singing—in addition to your performance score. Choose from these three party games:

- Vocal Fighters
- Kiss
- Time Bomb

You can get daring with the Random option, which flips through the video and party game offerings like a slot machine wheel. Jackpot!

Vocal Fighters

Feeling fierce? This game gives you a good taste of VS mode. You and your rival duel using your voices and mic moves. Compete by singing the same song. Only one can come out on top.

Kiss

Be a lover, not a fighter! Try the Kiss party game with a friend in Co-op mode. As you sing together successfully, the on-screen couple gets closer and closer. When they're within arms' length, tip your mics back at the same time until they kiss. See how much love you can get...

Time Bomb

Only successful singing can save the day! As soon as the song starts, the time bomb lights. The better you sing, the more the glass next to the bomb fills with water. When it has enough water, douse the fuse. Can't carry a tune? It could be curtains for you.

Sometimes you want a little more with your singing.

When that happens ... get your game on!

Jukebox Mode: Party!

Jukebox mode plays a random selection of music. Get the party going, and then jump in and sing any time by gently shaking the mic. The longer you're in Jukebox, the brighter the glow of the *Lips* disco ball on your screen.

There are two ways to start a multiplayer party.

Rock your party in Jukebox mode—the ultimate auto DJ.

Faves mode plays a continuous random sampling of your music based on your song ratings. For instance, you can set it to play all the songs you rated three or more stars. Leave it on as your party rages. Jump in any time you want to sing with a shake of the mic.

Playlist mode works similarly. Instead of selecting songs based on ratings, though, selection is based on your playlists. [If you haven't created a playlist yet, go to "Playlists" on page 4 for more.]

Make a move to **Jukebox** on the main screen, and then press **A**.

If you want to play in Faves mode, press **A**.

If you want to play in Playlist mode, press **Start**, and then press **A**.

Faves mode plays a continuous random sampling of your music based on your song ratings. For instance, you can set it to play all the songs you rated three or more stars. Leave it on as your party rages. Jump in any time you want to sing with a shake of the mic.

Sing to Your Music Collection

You can sing to songs on your Zune™, iPod, or other select personal music players. (Some digitally protected music may not be usable.)

Simply plug your device into one of the Xbox 360 video game and entertainment system's USB ports, and then grab an Xbox 360 Wireless Microphone or an Xbox 360 Controller.

Go to the Lips Web site at xbox.com/lips for a complete and up-to-date list of supported devices and more.

If you were using, or had enabled, the Xbox Media Player before you started Lips, we recommend you turn it off before using this feature.

Freestyle Mode

When a song from your music collection doesn't have chart data, like lyrics and other timing data, you can play in Freestyle mode.

Plug your supported personal music player into one of the USB ports on your Xbox 360 console. When the USB symbol appears in the lower left of the screen, the device is connected.

Next, go to **Get Music**, where you can display the songs on your device. If you have lots of songs, this may take a bit. When it's ready, choose what you want to sing in *Lips*.

You're almost there. Now go to the main screen, move to **Sing!**, and then press **A**. When a selected song or songs appear in your *Lips* library, choose one or more, and then freestyle.

Sing what you want whenever you want! It's all good.

Get More Music

Keep the music coming!

Xbox LIVE Marketplace is your go-to source for all things Lips!

Shopping for tunes? You can never have enough. You'll find hot songs from top artists for purchase in the Get Music area of the game. It's the go-to place for everything you need to keep your *Lips* library rockin'.

Connect to Xbox LIVE Marketplace in Get Music, and then check out the ever-growing selection.

It's easy to purchase just what you want, and then add it to your library.

Just press to change your music source. Use to move among:

Game Disc

Xbox 360 Hard Drive

Xbox LIVE Marketplace

Press to show or hide content from that source.

Xbox LIVE Free!

Xbox LIVE Silver subscriptions are free—yes, free! Get a Silver subscription today for an ultradynamic *Lips* experience. Just go to xbox.com/en-US/live/features/silverage.

Want the ultimate Xbox LIVE experience? Then go for the Gold! Check it out at xbox.com/en-US/live/features/goldenage.

Know the Score

Scoring is based on your performance — that's musical and stage performance!

Medals:

- Pitch
- Stability
- Rhythm
- Party
- Technique
- Performance

Song Scores:

- Biscuit
- Rock
- Meteor
- Asteroids
- Planet
- Star
- Super Nova
- Galaxy
- Universe
- Big Bang!

There's a whole lot more to your score than singing in time and on pitch. There are medals to be had and stars from Star Stream to catch! These advance your Grand Rank, which you can display in My Lips.

Tips to Improve Your Score

These tips can help you rocket yourself from the depths of humble Shower Dreamer to the heady heights of *Lips* stardom.

Sing with accurate pitch to increase your score. Doing so also helps you earn the Pitch medal.

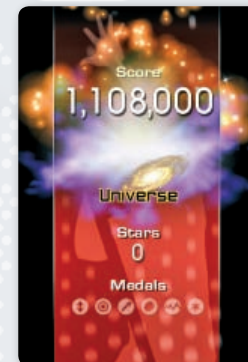

Stay on pitch for the duration of each note to up your score and close in on the Stability medal.

Match your vocal rhythm to the song's to bump up your score and earn the Rhythm medal.

If you're on beat and using the Noise Makers on your Xbox 360 Controller, you're on your way to bagging the Party medal.

Vocal expertise, like using vibrato, increases your score and helps you get the Technique medal.

Successful mic gesturing during breaks in singing puts the Performance medal in your grasp!

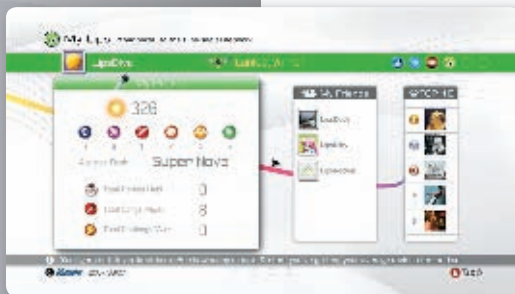

My Lips: Get Together

*Two's company,
three or more's a
community!*

Sure, you can keep score, but it's even more fun when you post your accomplishments to share with your friends ... and rib your rivals. You can also challenge your *Lips* friends to a little friendly competition from here.

My Lips is your portal to the *Lips* social network. It has three main windows:

- Your personal scores and history
- Your friends' status
- Your Top 10 info

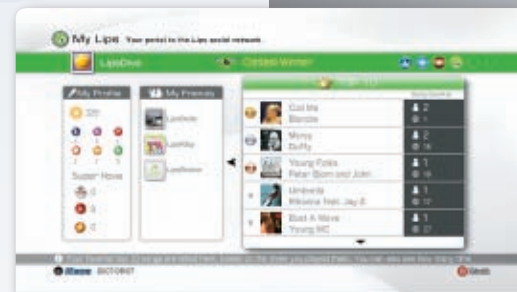

Track your Lips performance stats in the My Profile window. Need a certain score to get the Technique medal? Find it here.

In the My Friends window, see how your friends are doing and throw down challenges.

The Top 10 window shows your most frequently played songs.

*Express who you
are in the Lips
universe!*

Lips Web: It's live!

Lips is an entertainment experience. The songs, the games, the features, and the fun keep coming!

To stay in the know, go to *Lips* Web at

xbox.com/lips

Options and Settings

Change the look and feel to match your mood or your song selection.

The Options area of the game is where you set screen background, on-screen player colors, choose Noise Makers, and more.

Theme: Choose the visual background of the game here.

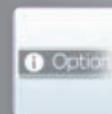

Color: Set the on-screen color for each Xbox 360 Wireless Microphone here. These appear during songs, so you know which vocal line is Player 1's (top) and which is Player 2's (bottom).

Mic LED: Turn the glow of the mic LED ON or OFF here.

SFX: Turn nonmusical sound effects for in-game features, like Star Stream, ON or OFF here.

Noise Makers: Choose and load the Noise Makers you want loaded on your Xbox 360 Controller here.

Show Help: Set to ON as the default, a Help tip displays whenever you select a menu option. If you don't need or want it, set this option to OFF here.

Limited Warranty For Your Copy of Xbox Game Software (“Game”) Acquired in the United States or Canada

Warranty

Microsoft Corporation (“Microsoft”) warrants to you, the original purchaser of the Game, that this Game will perform substantially as described in the accompanying manual for a period of 90 days from the date of first purchase. If you discover a problem with the Game covered by this warranty within the 90-day period, your retailer will repair or replace the Game at its option, free of charge, according to the process identified below. This limited warranty: (a) does not apply if the Game is used in a business or for a commercial purpose; and (b) is void if any difficulties with the Game are related to accident, abuse, virus or misapplication.

Returns within 90-day period

Warranty claims should be made to your retailer. Return the Game to your retailer along with a copy of the original sales receipt and an explanation of the difficulty you are experiencing with the Game. At its option, the retailer will either repair or replace the Game. Any replacement Game will be warranted for the remainder of the original warranty period or 30 days from receipt, whichever is longer. If for any reason the Game cannot be repaired or replaced, you will be entitled to receive your direct (but no other) damages incurred in reasonable reliance but only up to the amount of the price you paid for the Game. The foregoing (repair, replacement or limited damages) is your exclusive remedy.

Limitations

This limited warranty is in place of all other express or statutory warranties, conditions or duties and no others of any nature are made or shall be binding on Microsoft, its retailers or suppliers. Any implied warranties applicable to this Game or the media in which it is contained are limited to the 90-day period described above. TO THE FULL EXTENT ALLOWED BY LAW, NEITHER MICROSOFT, ITS RETAILERS OR SUPPLIERS ARE LIABLE FOR ANY SPECIAL, INCIDENTAL, PUNITIVE, INDIRECT OR CONSEQUENTIAL DAMAGES ARISING FROM THE POSSESSION, USE OR MALFUNCTION OF THIS GAME. THE FOREGOING APPLIES EVEN IF ANY REMEDY FAILS OF ITS ESSENTIAL PURPOSE. Some states/jurisdictions do not allow limitations as to how long an implied warranty lasts and/or exclusions or limitations of incidental or consequential damages so the above limitations and/or exclusions of liability may not apply to you. This limited warranty gives you specific rights, and you may also have other rights that vary from state/jurisdiction to state/jurisdiction.

For questions regarding this warranty contact your retailer or Microsoft at:

Xbox Product Registration
Microsoft Corporation
One Microsoft Way
Redmond, WA 98052-9953 USA
